Emergency Remote Learning New Problems and Complexities

### Session Goals

- How to polish your content delivery for more professional-looking lessons.
- Set yourself apart from the rest of the crowd.(Build Your Brand)
- Introduce tools and tips to create a more professional and engaging online classroom environment.
- Discuss Web conferencing platforms, Webcams, microphones, green screens, teleprompters, editing software, and language assessment tools.

#### 1. Set Realistic Goals for Online Classes

What are your instructional aims realizing the differing needs of learners and the limitations of technology?

#### Useful or Not?

"Technologies are becoming inherently more unusable because they often are trying to do too much."

Just because you CAN do it doesn't mean it SHOULD be done.

#### "Less is More" Principle

Don't abandon what already works for you.

Use only what you need!
Easier to learn, support, and maintain.

## 2. Plan out the Technical Logistics Beforehand and Test, Test, and Test

• Learners of different ages, needs, and styles.

Many video conferencing platforms available: Zoom, Microsoft Teams, Skype, GoToMeeting

#### **Zoom Basic**

- •40 mins limit on group meetings
- Unlimited meeting duration for 1 to 1 meetings

#### Zoom Pro

- Unlimited time limit on group meetings.
- Cloud recording
- Stream to Social Media (YouTube/Facebook)

Create Online Content Using Zoom for Language Learning and Teacher Engagement

#### 3. Tips for Online Classes

- Look at the camera, not at your screen.
- Come up with clear classroom policies including whether cameras are turned on or off.
- Give students a real reason to be there and use the polling feature to encourage engagement (polling, breakout rooms, whiteboard, annotation, chat)
- Learn how to use all the features of screen sharing, including sharing audio/video from your computer.
- Assign a student or co-teacher to monitor the chat.

#### 4. Broadcast/Record Your Content

- Microphones
- Pop Screens
- Smartphones, Webcams, or DSLR Cameras
- Lighting
- Green Screen and Backgrounds
- Tripods (cup tripod)
- Teleprompters (apps and actual devices)
