

# KNOW THE DIFFERENCE

## Than vs. Then

### Than

**Than:** Used to compare two things.

-----

She runs faster **than** I do.

### Then

**Then:** Refers to time or sequence; can also mean "in that case."

-----

First we ate, and **then** we watched a movie.

## HOW TO REMEMBER

**Than** = Has an **A** just like "comp**A**re"

**Then** = Has an **E** like "tim**E**"
